

Simon Tuvron

Experience

UX Designer | TotalEnergies

Mar 2026 - Present

Pau, FRANCE

- Led the UX/UI design and prototyping of complex plugins within the GeoNode ecosystem, delivering detailed functional UX specifications to streamline front-end development and optimize GIS platform workflows.

Web Designer, Developer | InterCultural Communications

Mar 2025 - Feb 2026

Goyang-si, SOUTH KOREA

- Designed and developed highly responsive websites using WordPress (Bricks Builder), ensuring strict visual consistency, intuitive layout, and an optimal user experience (UX).

UX Designer, Web Developer Intern | IRIT

May 2024 - Aug 2024

Toulouse, FRANCE

- Conducted user research and translated insights into interactive UX flows and high-fidelity wireframes in Figma. Implemented robust front-end components using ReactJS to bridge the gap between UX design and final development.

Education

National School of Cognitive Science Engineering

Sep 2022 - Sep 2025

Bordeaux, FRANCE

- Mastered User-Centered Design (UCD) principles, completing advanced coursework in user research, usability testing, and iterative design to create intuitive digital interfaces.
- Acquired strong technical proficiency in full-stack web development, focusing on front-end components and responsive frameworks to ensure seamless UX/UI implementation.
